

CLASSROOM COURSES

Managing Security Surveys

Conducting a security survey is an essential skill for security managers.

This classroom course provides a step-by-step guide to the process of conducting an effective survey and will supply you with a template for conducting your own security surveys.

The course will demonstrate how to identify the particular threats to your business, premises and staff, and how you can protect against them. During the course, our experienced instructors will guide you through each stage involved in conducting a survey. You will also learn how to use the security survey as part of your ongoing risk analysis and security strategy.

Throughout the course learners will build a portfolio of work which will form the basis of a written assignment to be completed post course. Learners will also take part in a 1-1 session with the tutor at the close of the course which combined with the written assignment, forms the basis of the BTEC accreditation assessment.

Core Content

- When to conduct a security survey
- What constitutes an effective security survey
- How to plan & conduct a security survey
- How to use crime prevention methods and techniques to reduce crime & loss
- How to use the security survey to prepare a risk assessment
- What security measures are available and when and how to use them
- How to write a security survey report & make effective recommendations

COURSE INFORMATION

QUALIFICATION
BTEC Level 4

DURATION
3 Days

WHO WILL BENEFIT

The course will be of immediate benefit to anyone conducting or overseeing security surveys. By guiding you through the important stages from initial planning to final report, this course will enable you to quickly and efficiently assess your security strengths and weaknesses.

It will equip you with the essential measures required to maximise your protection whilst meeting the realistic constraints of your budget.
