ASIS Physical Security Professional® (PSP®)

The ASIS PSP® credential signifies the holder's knowledge and experience in threat assessment and risk analysis; integrated physical security systems and the appropriate identification, implementation, and ongoing evaluation of security measures.

Those who gain the PSP® qualification are ASIS Board Certified in Physical Security and the accreditation enhances their in-company credibility and career prospects.

About the exam:

The exam consists of 125 multiple-choice questions and may also contain 15 "pre-test" (unscored) questions randomly distributed throughout the examination, for a total of 140 questions. The time allowed takes into consideration review of pre-test items.

The exam covers tasks, knowledge and skills in three broad domains that have been identified by Physical Security Professionals as the major areas involved in physical security management.

Core Content

- Physical security assessment
- Application, design & integration of physical security systems
- Implementation of physical security measures
